Archetype

Atobiu Installation

Archetype team - 11/04/2025

ATOBIU, meaning "meeting" in Sardinian, is an urban installation in S'Olivariu Park in Uta (CA). The local administration promoted the project with the aim of creating an outdoor theater that re-designs the square behind City Hall, transforming it into a vibrant social hub for the Uta community. This space is designed to be enjoyed by everyone at various times of the day, fostering a sense of community and togetherness.
