Farnocchia Chapel

Archetype team - 06/01/2025

The construction of a small chapel arises from the desire to provide a new recognizable landmark within the mountain village of Farnocchia, a small centre surrounded by the Apuan Alps, with narrow streets and houses made of stone. The installation is one of the key stops of the event “Melodie e Sentieri”, a musical trek that connects the villages of Farnocchia and Sant’Anna di Stazzema.
